Pediatric Burns and Their Medical Mimics in Child Maltreatment presented by [Lauren Burge, MD](#)

Objectives:

1. Describe the features and classification of specific types of burns.
2. Discuss specific cultural traditions that may manifest as burns in children.
3. Recognize burn features that are specific for inflicted burns in children.
4. Identify common medical mimics of pediatric burns.
5. Formulate an investigatory plan based on important historical factors regarding pediatric burns.
