

Short Biography of Dr. Brandi Hawk

Dr. Brandi Hawk is a licensed psychologist at the UC Davis Children's Hospital CAARE Center. She is the clinical manager for programs providing mental health services to children in foster care and is a co-developer of Parent-Child Care (PC-CARE), a brief intervention for children and caregivers. She has conducted trainings on children's mental health, interventions for children, parenting, and childhood trauma both nationally and internationally. Current research interests include the effectiveness of dyadic interventions in the treatment of trauma and disruptive behavior disorders.
