President's Message

Fellow PACRAO members,

Your Executive Board met in Sacramento from July 11 through 13, the site of the 2005 Conference. While the temperature outside the Hyatt Regency hovered around the 100 degree mark then, we expect during the first week in November it will be absolutely wonderful! We worked on a number of items, including the budget for the Victoria conference, nominations for AACRAO positions, and suggesting some Constitutional and By Laws changes, which are detailed in this newsletter. The Constitution states that we are to notify the membership at least a month prior to the annual Business Meeting, which is the Wednesday morning, November 6th, of the Victoria Conference, when a vote will be taken.

In my previous articles, I have been writing about tips for your working areas and working with staff members. I'd like to suggest in this article that you take the time to take care of the Admission Officer and Registrar at your institution. I realize that among all our various educational institutions that we have many different organizational structures and new titles such as "Enrollment Management Director," but no matter what we call them, every institution has someone with these responsibilities. I think what is so unique about these positions is that there is no direct schooling to educate us for these jobs and that they are essentially solitary positions (one per campus), resulting in great demands on our time. These factors make it especially challenging for folks in these positions.

How do you learn the elements of these jobs? Almost all the training is on-the-job and through related professional development organizations. I know PACRAO can play a huge part in helping to understand the tasks involved in admissions and Registrar responsibilities. The AACRAO session on "Registrar 101" is a wonderful professional development opportunity.

Coping with being the only person on campus who was primarily responsible for compliance with FERPA, transcript security and accuracy, registration processes, and management of the student data is a little different challenge! Although the "buck stopped with me" on Registrar tasks, I knew that there were plenty of resources through AACRAO and my helpful friends around the PACRAO region I could call (read: networking) upon for advice. In Washington State, the two-year colleges have a WACRAO group which meets every ten weeks to take care of the state student management data business and to share Registrar lore. Since you are the sole person on campus, you must develop other folks as a system of colleagues. You may not meet around the

PACRAO Nominations and Elections Committee

The PACRAO members featured below have agreed to serve, if elected, on the nominations and elections committee to determine the slate of officers and nominating committee for the PACRAO leadership to serve in 2003-04. This important committee will solicit your ideas for PACRAO leadership and meet during the 2002 conference in Victoria. There they will evaluate the nominations made by the membership for president-elect, vice president for publications and information technology, and treasurer. Please think about colleagues whom you would like to nominate for these important offices.

To elect the 2002 committee, please vote no later than September 15 for no more than five of the candidates presented here. The five candidates receiving the most votes will be elected to the committee. The next two candidates will be alternates in the event that a committee member is unable to serve at the annual conference in Victoria, British Columbia.

You may vote in one of two ways:

coffee pot or water cooler, but conference calls or email conversations are very satisfying and supportive.

Dealing with the huge time demands means some careful and strategic planning of time away from the job to refresh and re-create yourself. This is absolutely essential to prevent burn-out. A good strategy is to thoroughly train a good person, or several folks to be your back-up, so that when you do get away, you can truly relax.

So, my final message, my hard-working friends, is to take care of yourself! If you are in a supporting role, show your Admissions Officer and Registrar that you can be that dependable back up person. Our colleges and universities need all of us to maintain an effective system for admissions and enrollment/data management. We can function at a high level in this demanding role when we pay attention to fulfilling our needs for education, networking, and re-creation.

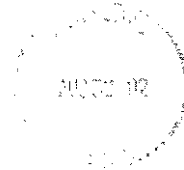

See you in Victoria!!!
